

Please join True North Neurologist Dr. Alan Ettinger and the Synaptic Groove Band as we perform for the Music for Autism organization, on May 10 at the Brooklyn Heights Museum.

The image is a screenshot of the Music for Autism website. At the top left is the logo for "music for Autism" with the tagline "Orchestrating Stronger Lives". The logo features musical notes and a sun. To the right of the logo is a navigation menu with links: "About Us", "Concerts", "Musical Zoo", "Artists", "Autism and Music", "Get Involved", and "What's New". A blue "Donate Now" button is located in the top right corner. The main content area features a photograph of a young boy in a blue shirt playing a xylophone, with other children in yellow shirts in the background. Below the photo, the text reads "In-Person Concert with Synaptic Groove Band". Underneath this, there is a calendar icon followed by "May 10, 2025" and a location pin icon followed by "Brooklyn Heights Library". Below that, the time "1PM - 2PM" is listed. At the bottom, the address "286 Cadman Plaza West, Brooklyn, NY 11201" is provided.

Music for Autism provides autism-friendly, interactive concerts developed specifically for individuals with autism and their families. The concerts feature professional musicians, and have included Tony Award winners, Grammy-winning classical artists, and Pulitzer Prize winners. To ensure equal access for all, every Music for Autism concert is fully subsidized. Families note that the concerts help fill a major psychosocial void, enabling them to enjoy enriching activities that are inclusive and to experience the joy and power of music as a family.
